

BEAT COVID GIBRALTAR

LET'S BEAT COVID-19 TOGETHER

Beat COVID Gibraltar has been developed by HM Government of Gibraltar and the Gibraltar Health Authority to help reduce the spread of the COVID-19 virus and keep our community safe.

DOWNLOAD IT NOW

Beat COVID App

The Beat COVID Gibraltar app uses the bluetooth technology on your phone to track other phones you have been in close proximity to. It uses the Exposure Notification Service and you will be notified directly if you have been in close contact with someone who has tested positive for the virus. Likewise, if you are tested positive for COVID-19 yourself, those you have been in close contact with will be notified.
